“ *Dear Pier Maria Boria*  
*It was an honor to know your sister Dr. Boria even if it was only a doctor/patient relationship. She impacted my life with her knowledge and wisdom. If you would like the name plate I took so many years ago, I would love to give it to you. It is only a piece of plastic with her name. But it was hers.*  
*I greatly appreciate your response and again I offer my condolences.*  
*Michael*

“ *I knew Dr. Boria fifty three years ago at Sheppard Pratt. I was her patient. She treated me for six months after a suicide attempt. I was nineteen years old. (The therapy must have worked) I am almost seventy two now. When I was discharged, she wrote me a very nice letter. I still have the letter today. In the letter, she told me to stay in touch. Sadly I did not. I often thought of Dr. Boria. I just googled her today and found her obituary. I wish I had stayed in touch if only just once. I have something of hers that I always wanted to return to her. When I was discharged, I took her name plate from her office door at Sheppard Pratt. I really don't know why I took it, other than a souvenir. I was just a stupid nineteen year old.*

*My condolences to Dr. Boria's family.*  
*Michael*
